

Dear Colleagues,

We are pleased to invite you to the 4th Workshop of the Hellenic Institute of Nuclear Physics (HINP), which will be held at the “Karolos Papoulias” Conference Center, University of Ioannina, on Friday 5 and Saturday 6 of May 2017.

The aim of these workshops is for keeping track of new aspects and perspectives in Nuclear Physics, as demonstrated by research carried out at the national and international level. An overview of the status and opportunities, as well as future directions in the field in Greece, will be concluded in a round table discussion at the end of the workshop.

The scientific program will include oral and poster contributions in the following fields:

- Nuclear Structure and Nuclear Reactions
- Hadron Physics
- Environmental, Medical and Archaeometry Applications

Participants are kindly requested to visit our conference web page (<http://hinpw4.physics.uoi.gr>) in order to submit their registration and abstract for an oral presentation or poster. The dead line for registration is the 3rd of April 2017, while for abstract submission the 25th of April 2017. The web page is now in a preliminary form but soon will contain all the appropriate information about accommodation and the venue of the workshop. A small fee of 15 euro for seniors and 5 euro for students may be requested for the coffee and lunch breaks on your arrival. If you have questions, not addressed in our web page, please contact me personally at apakou@cc.uoi.gr.

This time, we will have the honor and the pleasure to have with us in the workshop eight distinguished colleagues from abroad to present their work and collaborate with us on special topics to be decided during the sessions. For their oral presentations, 40 minutes including questions will be allocated in our program. The duration of oral presentations of senior colleagues will be 30 min including questions while 15 minutes will be allocated for oral presentations of graduate students.

For those who would like to extend their stay in Ioannina for one more day (Sunday 7 May 2017) we intend to organize with the help of the mountaineering club of Ioannina a “walk” in the country side.

Your participation is critical to the success of the Workshop and will provide a basis for promoting synergy between HINP members. We are looking forward to welcoming you all in Ioannina.

With cordial regards,

Athena Pakou
On behalf of the
ORGANIZING COMMITTEE
