

Dear Colleagues

I am pleased to inform you that all information including the workshop venue and the poster are included now in our webpage (<http://hinpw4.physics.uoi.gr>). You could also find suggestions for the hotels in Ioannina with the indicative cost. For the graduate students few places in the “Stavros Niarchos” dormitory of the University will be soon available, with a low cost for double rooms (8 euro per person). The students interested for those rooms should contact Christina Papachristodoulou (xpapaxri@cc.uoi.gr).

The workshop banquet will take place at the University restaurant “Φυγός” Friday evening the 5th of May. The participants wishing to take part should declare it in their registration. The cost will be 15 euro and the payment can be made upon their arrival.

I take this opportunity to kindly ask the participants to make their registration and abstract submission if possible till 15th of March (at least registration expressing also their intention of a talk) in order to give us the opportunity to make a preliminary program. We expect a large number of participants and last minute, we may not be able to accept all papers for oral presentation.

Best regards

Athena Pakou

on behalf of the Organizing Committee
